# sommeliers

—RESTAURANT—

Sommeliers Restaurant (2013) was introduced to commemorate Claus J. Riedel's revolutionary Sommeliers series first presented at the Italian Sommeliers congress in Orvieto (October 1973) celebrating its 40th anniversary in 2013. Claus Riedel was the first glass maker in history to discover that the shape of the glass affects the enjoyment of wine.

Riedel created 2013 the Sommeliers Restaurant glasses to answer the demand of the hospitality industries for varietal-specific glassware which heightens the wine experience for the guest. In order to avoid confusion will each Sommeliers Restaurant glass carry on the base it's own identification highlighting "Riedel Restaurant" on the stem's base.

*extreme*  
restaurant

EXTREME glasses are named for their extreme contours and have diamond-shaped bowls that angle out dramatically before narrowing at the top. The result is an exceptionally wide evaporation surface that intensifies and enhances silkiness in the mouth of New World wines, which tend to be more fruit driven in style.

## DECANTER • MOUTH-BLOWN IN AUSTRIA • LEAD CRYSTAL

Since RIEDEL whole-heartedly believes all wines - young and old, red, white or sparkling - can be enhanced by decanting, it is only natural that they would have a wide selection of decanters in their collection; many elegant, complex, mouth-blown designs. Decanting young wines in RIEDEL decanters gives the wine a chance to bloom and attain a stage of development that normally requires years of aging - liberating the aromas, intensifying the fruitiness of the mid-palate and rounding out the texture. While decanting older wine, allows the wine to separate from any deposits that may have formed in the bottle over time. RIEDEL'S decanters are sculptural enough to qualify as art but are also incredible triumphs of functionality - a classic RIEDEL hallmark.
